**DATE:** JANUARY, 2007

This FY2005-06 annual report on the four Developmental Centers is based on data extracted from the developmental center's data system (HEARTS). The data extract is stored in the Division of Mental Health, Developmental Disabilities and Substance Abuse Service's Client Data Warehouse (CDW). Data on the developmental center's resident population, admissions, discharges and persons served are presented. Incorporated in the report are 7 tables and 1 graph. The number of persons served and the rate of persons served per 100,000 population is shown for each county in the state.

## MAJOR SERVICE INDICATORS

Major service indicators for FY2005-06 reported by the four centers show a mixed trend in most indicators. The resident population has shown a continuing decline since fiscal 1997. The total number of admissions shows a decrease because Black Mountain Center became a Specialized Nursing Facility May 1, 2006 and their admissions are not included with the Mental Developmental Center Annual Report but will be shown with The Special Care Annual Report.

## PERSONS SERVED

The number of persons served is the sum of the resident population and on leaves at the beginning of the fiscal year plus the number of admissions during the fiscal year. Table 2 shows the number of persons served by the four mental developmental centers from each county in the state. Also shown for each county is the rate of persons served per 100,000 county population. Table 2-A shows the number of persons served by the four mental developmental centers by selected indicators.
